## What do we do?

We offer you the opportunity to track all processes and costs of your import and export operations from a single source. With the door-to-door turnkey service approach, we can manage the processes that are planned accurately and faultless, and track every step instantly, thus creating time and cost advantages.

01

### International Logistics Services

We make a difference by offering the most suitable and advantageous prices with our worldwide agency networks in seaway, airway and highway transports.

02

### Customs Consultancy Services

We complete all your customs processes quickly, error-free and without any problems with our large staff of expert and experienced consultants and brokerages in our own customs clearance company, which has offices all over Turkey.

03

### Warehouse and Entrepot Services

We enable the tracking of manageable processes with optimum cost advantage in Warehouses and Entrepot, prevent you from incurring heavy costs in an increasingly competitive environment, and ensure the traceability of your products within the supply chain process.

04

### Insurance Services

We make your workflow easy by being with you in case of damage within the framework of international rules. We offer you advantageous prices during commodity insurance in all transportation processes of the products.

# Effective Consolidation Affordable Prices

We offer solutions to all your needs in maritime transportation with our local agency networks and experienced staff in all countries of the world.

By choosing the most suitable transport type for your cargo, we inform you about freight alternatives with our experienced team of experts.

We offer a cost advantage with our special prices for your complete and partial loads, with the contracts we have made by contacting the lines directly.

We inform you about the operation and follow-up processes, all stages of which are under control, and instant tracking information of the cargo until the delivery of the cargo in export and import.

## Our Main Services In Maritime Transport

- ✓ Transportation and organization of full and partial loads in imports and exports
- ✓ Domestic overflows between port-factory / warehouse-port at reasonable prices
- ✓ Organization of Cross Trade uploads
- ✓ Organization of transit transfer Operations
- ✓ Multimodal transport
- ✓ Transport of dangerous / refrigerated and overflowing cargoes
- ✓ Import and export customs clearance service
- ✓ Making commodity insurance

## Highway Transportation

# Full And Partial Solutions On The Highway

With our worldwide agency network, we provide regular land transportation services in a way that can fulfill all operations at the delivery and loading site (transfer, storage, door delivery, internal transportation, customs clearance and warehouse services can be followed through the system).

### Full and partial solutions on the highway

With our widespread agency network across Europe, we manage all operations and customs processes at the place of delivery and loading, and create an advantage by offering you the most cost-effective solutions.

### We are ready with our experienced staff

With our experienced and dynamic staff, each of whom is specialized in different product groups, we offer suitable and different solution advantages in your road operations for many different product groups from textiles to food.

### We provide quick service

We provide fast service to many points of Europe with our panel van vehicles. For example, we deliver to Germany in 38 hours.

### We work proactively

We prepare for your customs clearance before your departure and arrival. We directly affect the acceleration of your logistics process.

## Airway Transport

# Widespread Agency Network And Affordable prices

We offer solution opportunities with our experienced and dynamic team by offering the most competitive prices, the best service and cost advantage, as a result of special price agreements made with our worldwide agency network, airlines and airline sales representatives.

With our experienced Airline team, we provide door-to-door service for your airline import and export cargoes, follow up your cargo, and provide the best information flow and prevent extra costs that may occur.
